**PROSPECTUS SUPPLEMENT
(to the Short Form Base Shelf Prospectus dated August 20, 2021)**

NEW ISSUE

OCTOBER 6, 2021

MCAN MORTGAGE CORPORATION

**\$30,000,000
Common Shares**

MCAN Mortgage Corporation (the “Corporation”, “MCAN”, “we”, “our” or “us”) is hereby qualifying the distribution (the “Offering”) of common shares of the Corporation (the “Common Shares”) having an aggregate offering price of up to \$30,000,000.

The Corporation has entered into an equity distribution agreement dated October 6, 2021 (the “Equity Distribution Agreement”) with Canaccord Genuity Corp. (the “Agent”) pursuant to which, except as noted below, the Corporation may distribute Common Shares from time to time, through the Agent, as agent for the distribution of such Common Shares. See “Plan of Distribution”.

Sales of the Common Shares, if any, under the Offering are anticipated to be made in transactions that are deemed to be “at-the-market distributions” as defined in National Instrument 44-102 – *Shelf Distributions* (“NI 44-102”), including sales made directly on the Toronto Stock Exchange (the “TSX”) or any other recognized “marketplace” within the meaning of National Instrument 21-101 – *Marketplace Operation* (a “Marketplace”). The Common Shares will be distributed at market prices prevailing at the time of the sale of such Common Shares. As a result, prices may vary as between purchasers and during the period of distribution. **There is no minimum amount of funds that must be raised under the Offering. This means that the Corporation could complete the Offering after raising only a small portion of the offering amount set out above, or none at all.** See “Plan of Distribution”.

The Corporation will compensate the Agent for its services in acting as agent in connection with the sale of Common Shares pursuant to the Equity Distribution Agreement in an amount of 2.0% of the gross sales price per Common Share sold.

No agent, underwriter or dealer involved in the Offering, no affiliate of such an agent, underwriter or dealer and no person or company acting jointly or in concert with such an agent, underwriter or dealer has over-allotted, or will over-allot, Common Shares in connection with the Offering or has effected, or will effect, any other transactions that are intended to stabilize or maintain the market price of the Common Shares in connection with the Offering. See “*Plan of Distribution*”.

The outstanding Common Shares are listed and posted for trading on the TSX under the symbol “MKP”. On October 5, 2021, the last trading day prior to the date of this Prospectus Supplement, the closing price of the outstanding Common Shares on the TSX was \$18.23. **The TSX has conditionally approved the listing of the Common Shares. Listing will be subject to the Corporation fulfilling all of the listing requirements of the TSX on or before one business day subsequent to filing this Prospectus Supplement, and in no case, later than the first sale of Common Shares pursuant hereto.**

No certificates evidencing the Common Shares will be issued to purchasers, except in certain limited circumstances, and registration will be made in the depository service of CDS Clearing and Depository Services Inc. (“CDS”). Purchasers of the Common Shares will receive only a customer confirmation from the Agent or other registered dealer who is a CDS participant and from or through whom a beneficial interest in the Common Shares is purchased.

Investing in the Common Shares involves certain risks that should be considered by a prospective purchaser. Prospective purchasers should carefully consider the risk factors described herein under the heading “*Risk Factors*” and elsewhere in this Prospectus Supplement, the Prospectus and the documents incorporated by reference herein and therein.

The Common Shares are not “deposits” within the meaning of the *Canada Deposit Insurance Corporation Act (Canada)* and are not insured under the provisions of that Act or any other legislation. A return on an investment in the Common Shares is not comparable to the return on an investment in a fixed-income security. The recovery of your initial investment in the Common Shares is at risk, and the anticipated return on your investment is based on certain performance assumptions. Although the Corporation’s policy is to pay out substantially all of its taxable income to its shareholders (the “**Shareholders**”), these dividends may be reduced or suspended. The actual amount distributed will depend on numerous factors disclosed in the Corporation’s continuous disclosure documents, including the **financial performance of the mortgages in its portfolio, its debt covenants and obligations and its future capital and liquidity requirements.** In addition, the market value of the Common Shares may decline if the Corporation is unable to meet its dividend targets in the future, and that decline may be significant. You should be aware that the acquisition of the Common Shares described herein may have tax consequences in Canada. This Prospectus Supplement and the Prospectus may not describe these tax consequences fully. You should read the discussion under “**Certain Canadian Federal Income Tax Considerations**” in this Prospectus Supplement. See also “**Risk Factors**” in this Prospectus Supplement and the Prospectus.

The Corporation is a corporation incorporated under the *Trust and Loan Companies Act* (Ontario) and its head and registered office is at 200 King Street West, Suite 600, Toronto, Ontario, Canada, M5H 3T4. It is a mortgage investment corporation (“MIC”) within the meaning of the *Income Tax Act* (Canada) (the “**Tax Act**”) whose business is investing in a diversified portfolio of Canadian mortgages, and other types of securities, loans and real estate investments. Please see “*Summary Description of the Business*” for more details.

The Corporation received its certificate to commence business from the Office of the Superintendent of Financial Institutions (“**OSFI**”) on November 7, 1991. MCAN’s head and registered office is located at 200 King Street West, Suite 600, Toronto, Ontario, Canada.

The Corporation is a Loan Company under the Trust Act and a Mortgage Investment Corporation (“MIC”) under the *Income Tax Act* (Canada) (the “Tax Act”). As a Loan Company under the Trust Act, MCAN is subject to the guidelines and regulations set by the OSFI.

MCAN’s invests in a diversified portfolio of Canadian mortgages, as well as other types of securities, loans and real estate investments, including its investment in MCAP Commercial LP (“MCAP”). The Corporation manages its capital and asset balances based on the regulations and limits of both the Tax Act and OSFI.

MCAN’s wholly-owned subsidiary, XMC Mortgage Corporation (“XMC”), is an originator of single family residential mortgage products across Canada.

The Corporation is authorized to issue an unlimited number of Common Shares with no par value. As at the date of this Prospectus Supplement, there are 27,646,210 Common Shares issued and outstanding. The outstanding Common Shares are listed and posted for trading on the TSX under the symbol “MKP”. On October 5, 2021 the last trading day prior to the date of this Prospectus Supplement, the closing price of the Common Shares on the TSX was \$18.23.

SUMMARY DESCRIPTION OF THE BUSINESS

General

The Corporation’s objective is to generate a reliable stream of income by investing in a diversified portfolio of Canadian mortgages, including single family residential, residential construction, non-residential construction and commercial loans, as well as other types of securities, loans and real estate investments, including its investment in MCAP. MCAN employs leverage by issuing term deposits that are eligible for Canada Deposit Insurance Corporation (“CDIC”) deposit insurance and are sourced through a network of independent financial agents. The Corporation manages its capital and asset balances based on the regulations and limits of the Trust Act, the Tax Act and OSFI.

As a MIC, the Corporation is entitled to deduct the dividends that it pays to shareholders from its taxable income. Regular dividends are treated as interest income to shareholders for income tax purposes. MCAN is also able to pay capital gains dividends, which would be treated as capital gains to shareholders for income tax purposes. Dividends paid to foreign investors may be subject to withholding taxes. To meet the MIC criteria, 67% of the Corporation’s non-consolidated assets measured on a tax basis are required to be held in cash or cash equivalents and residential mortgages.

MCAN’s wholly-owned subsidiary, XMC, is an originator of single family residential mortgage products across Canada.

Term Deposits

MCAN is a federally regulated deposit taking institution. The Corporation issues term deposits that are eligible for CDIC deposit insurance. MCAN sources term deposits through a broker distribution network across Canada consisting of third party deposit agents and financial advisors. The Corporation believes that its term deposits provide a reliable low-cost funding source that can be strategically matched against the corporate mortgage portfolio.

Supervision and Regulation

The activities of the Corporation are governed by the Trust Act and are supervised by OSFI. OSFI examines the affairs and business of each federally regulated financial institution to ensure compliance with regulations and to ensure each deposit taking institution is in sound financial condition. OSFI is responsible to the Minister of Finance for the administration of the Trust Act. OSFI’s report of the examination of each federally regulated financial institution is submitted to the Minister of Finance.

The Corporation is also subject to regulation by CDIC, which insures certain deposits held at member institutions, and by the Financial Consumer Agency of Canada ("FCAC"). The FCAC is responsible for enforcing consumer related provisions of the federal statutes that govern financial institutions, including the Trust Act and its regulations. The Corporation is also subject to oversight by the Financial Transaction and Reports Analysis Centre of Canada, who, as Canada's financial intelligence unit, administers the *Proceeds of Crime (Money Laundering) and Terrorist Financing Act* and its regulations. These regulations apply to all federally regulated financial institutions in Canada and set out the expectations and obligations related to detecting and deterring money laundering and the financing of terrorist activities.

Additionally, the activities of the Corporation are regulated under provincial laws in those provinces where it and its subsidiaries operate.

USE OF PROCEEDS

The net proceeds from the Offering are not determinable in light of the nature of the distribution. The net proceeds to the Corporation of any given distribution of Common Shares through the Agent in an "at-the-market distribution" will represent the gross proceeds after deducting the applicable compensation payable to the Agent under the Equity Distribution Agreement and the Corporation's expenses of the distribution. See "*Plan of Distribution*".

The Corporation currently intends to use the net proceeds, if any, from this Offering for its mortgage lending and investment business. The allocation of the net proceeds may vary depending on future developments in the Corporation's business operations or unforeseen events, including those listed under the "*Risk Factors*" section of this Prospectus Supplement.

CONSOLIDATED CAPITALIZATION

Since June 30, 2021, the date of the most recently filed interim financial statements, there have been no material changes in the share and loan capital of the Corporation.

The Corporation may, from time to time during the period that the Offering remains in effect, issue and sell Common Shares having an aggregate sale price of up to \$30,000,000. See "*Plan of Distribution*".

SUMMARY DESCRIPTION OF COMMON SHARES

The Corporation is authorized to issue an unlimited number of Common Shares. As at the date of this Prospectus Supplement, there are 27,646,210 Common Shares issued and outstanding. Holders of Common Shares are entitled to receive notice of and to attend and vote at all meetings of the Shareholders.

Generally, each Common Share provides one vote per Common Share. However, pursuant to MCAN's by-laws and the Trust Act, directors of MCAN are to be elected through cumulative voting in certain circumstances. Under the cumulative voting system, each holder of Common Shares has the right to cast a number of votes equal to the number of votes attached to the Common Shares held by such shareholder multiplied by the number of directors to be elected at any meeting of shareholders. A holder of Common Shares may cast all such votes in favour of one nominee or distribute them among the nominees in any manner.

Subject to the Trust Act, the holders of Common Shares of the Corporation shall be entitled to receive in each financial year of the Corporation, any dividends declared at the discretion of the directors.

Subject to the Trust Act, in the event of the liquidation, dissolution or winding-up of the Corporation, whether voluntary or involuntary, or in the event of any other distribution of assets of the Corporation among its shareholders for the purpose of winding up its affairs, the holders of Common Shares shall be entitled to receive the remaining assets of the Corporation.

For more details on the attributes and characteristics of the Common Shares, please refer to the AIF and the Prospectus.

PLAN OF DISTRIBUTION

The Corporation has entered into the Equity Distribution Agreement with the Agent, under which it may issue and sell from time to time Common Shares having an aggregate sales price of up to \$30,000,000 in each of the provinces and territories of Canada. Sales of Common Shares will be made in transactions that are deemed to be “at-the-market distributions” as defined in NI 44-102, including sales made directly on the TSX or any other Marketplace. Subject to the terms and conditions of the Equity Distribution Agreement and upon receipt of instructions provided by the Corporation, the Agent will use its commercially reasonable efforts, consistent with its normal trading and sales practices, applicable laws, the applicable rules of the TSX or any other applicable Marketplace, to sell the Common Shares directly on the TSX or any other Marketplace. The Common Shares will be distributed at market prices prevailing at the time of the sale of such Common Shares. As a result, prices may vary as between purchasers and during the period of distribution. The Corporation will instruct the Agent as to the number of Common Shares that may be sold from time to time by sending the Agent a notice (the “**Placement Notice**”) that requests the Agent sell up to a specified dollar amount or specified number of Common Shares and specifies any parameters in accordance with which the Corporation requires that the Common Shares be sold. The parameters set forth in the Placement Notice may not conflict with the provisions of the Equity Distribution Agreement. The Corporation or the Agent may suspend the Offering upon proper notice and subject to certain other conditions set forth in the Equity Distribution Agreement.

The Corporation will disclose the number of Common Shares sold, as well as the gross proceeds, commission and net proceeds from sales under the Offering in its annual and interim financial statements and associated management’s discussion and analysis of financial condition and results of operations, for any financial periods in which sales of Common Shares occur. For so long as the Common Shares are listed on the TSX, the Corporation will provide the TSX with all information it requires with respect to the offered Common Shares within the timelines prescribed by the TSX.

Pursuant to the terms of the Equity Distribution Agreement, the Corporation will compensate the Agent for its services in acting as agent in the sale of Common Shares in an amount of 2.0% of the gross sales price per Common Share sold (the “**Commission**”). The Corporation estimates that the total expenses it will incur for the Offering, excluding compensation payable to the Agent under the terms of the Equity Distribution Agreement, will be approximately \$250,000.

Unless otherwise specified in the applicable Placement Notice, settlement for sales of Common Shares will occur on the second trading day following the date on which any sales are made, or on such earlier date as is the then current industry practice for regular-way trading, in return for payment of the net proceeds to the Corporation.

The Offering will terminate upon the earlier of: (i) the issuance and sale of all of the Common Shares subject to the Equity Distribution Agreement by the Agent; (ii) the receipt issued for the Prospectus ceasing to be effective in accordance with applicable securities laws; and (iii) the termination of the Equity Distribution Agreement in accordance with its terms. Pursuant to the Equity Distribution Agreement, the Corporation, on the one hand, and the Agent, on the other hand, may terminate the Equity Distribution Agreement in its sole discretion at any time by giving 15 days’ advance written notice to the other party.

No underwriter or dealer involved in the Offering, no affiliate of such an underwriter or dealer and no person or company acting jointly or in concert with such an underwriter or dealer, may, in connection with the Offering, enter into any transaction that is intended to stabilize or maintain the market price of the Common Shares, including selling an aggregate number of Common Shares that would result in such underwriter or dealer creating an over-allocation position in the Common Shares.

The Agent and its affiliates may in the future provide various investment banking, commercial banking and other financial services to the Corporation or its affiliates for which the Agent and its affiliates may receive customary fees.

The Common Shares offered hereby have not been and will not be registered under the U.S. Securities Act, or any securities or “blue sky” laws of any of the states of the United States. Accordingly, the Common Shares may not be offered or sold within the United States except in accordance with an exemption from the registration requirements of the U.S. Securities Act and applicable state securities laws.

This Prospectus Supplement, together with the Prospectus, does not constitute an offer to sell or a solicitation to buy any of the Common Shares hereby in the United States.

The TSX has conditionally approved the listing of the Common Shares. Listing will be subject to the Corporation fulfilling all of the listing requirements of the TSX on or before one business day subsequent to filing this Prospectus Supplement, and in no case, later than the first sale of Common Shares pursuant hereto.

ELIGIBILITY FOR INVESTMENT

In the opinion of Goodmans LLP, counsel to the Corporation, and Blake, Cassels & Graydon LLP, counsel to the Agent (collectively, “**Counsel**”), based on the provisions of the Tax Act and the regulations thereunder (the “**Regulations**”) in force as of the date hereof, provided that the Common Shares are listed on a “designated stock exchange” as defined in the Tax Act (which currently includes the TSX) on a particular date, the Common Shares would, if issued on such date, be qualified investments under the Tax Act and the Regulations for trusts governed by registered retirement savings plans (“**RRSPs**”), registered retirement income funds (“**RRIFs**”), deferred profit sharing plans, registered disability savings plans (“**RDSPs**”), registered education savings plans (“**RESPs**”) and tax-free savings accounts (“**TFSAs**”), each as defined in the Tax Act (collectively, the “**Plans**”).

The Common Shares will also be qualified investments for such Plans at a particular time if the Corporation qualifies as a MIC throughout the taxation year in which the particular time occurs and further provided that the Corporation does not hold as part of its property at any time during the relevant calendar year any indebtedness, whether by way of mortgage or otherwise, of a person who is an annuitant, a beneficiary, an employer, or a subscriber under, or a holder of, the Plan, or of any other person who does not deal at arm’s length with that person.

Notwithstanding the foregoing, if the Common Shares are “prohibited investments” for the purposes of a TFSA, RDSP, RRSP, RRIF or RESP, the holder, annuitant or subscriber of such Plan, as the case may be, will be subject to a penalty tax as set out in the Tax Act. The Common Shares will not be a “prohibited investment” provided the holder, annuitant or subscriber of a TFSA, RDSP, RRSP, RRIF or RESP, as the case may be, deals at arm’s length with the Corporation for purposes of the Tax Act and does not have a “significant interest” (within the meaning of the Tax Act) in the Corporation. In addition, Common Shares will not be a “prohibited investment” if the Common Shares are “excluded property” (within the meaning of the Tax Act) for trusts governed by a TFSA, RDSP, RRSP, RRIF or RESP. **Prospective purchasers who intend to hold Common Shares in a TFSA, RDSP, RRSP, RRIF or RESP should consult their own tax advisors regarding their particular circumstances.**

CERTAIN CANADIAN FEDERAL INCOME TAX CONSIDERATIONS

In the opinion of Counsel, the following is, as of the date hereof, a summary of the principal Canadian federal income tax considerations pursuant to the Tax Act generally applicable to a holder who acquires Common Shares under this Offering. This summary is only applicable to such a holder who, for purposes of the Tax Act and at all relevant times, is or is deemed to be resident in Canada, holds the Common Shares as capital property and deals at arm’s length with the Corporation and the Agent and is not affiliated with the Corporation or the Agent (a “**Holder**”). Generally, Common Shares will be considered to be capital property to a Holder provided the Holder does not hold the Common Shares in the course of carrying on a business of trading or dealing in securities and has

not acquired the Common Shares in one or more transactions considered to be an adventure or concern in the nature of trade.

Certain Holders who might not otherwise be considered to hold their Common Shares as capital property may, in certain circumstances, be entitled to have the Common Shares, and all other “Canadian securities” (as defined in the Tax Act) owned or subsequently acquired by such Holders, deemed to be capital property by making the irrevocable election permitted by subsection 39(4) of the Tax Act. Such Holders should consult their own tax advisors as to whether such election is available and advisable, having regard to their own particular circumstances.

This summary is not applicable to a Holder: (i) that is a “financial institution” for purposes of the mark-to-market rules; (ii) an interest in which is or would be a “tax shelter investment”; (iii) that is a “specified financial institution”; (iv) that reports its “Canadian tax results” in a “functional currency” (which excludes Canadian dollars); (v) that is exempt from tax under Part I of the Tax Act; or (vi) that enters into a “derivative forward agreement” in respect of the Common Shares (in each case, as defined in the Tax Act). Any such Holder should consult its own tax advisors with respect to an investment in the Common Shares. In addition, this summary does not address the deductibility of interest by a Holder who has borrowed money in connection with the acquisition of Common Shares.

This summary is based upon the current provisions of the Tax Act and the Regulations thereunder, taking into account all proposed amendments to the Tax Act and the Regulations publicly announced by or on behalf of the Minister of Finance (Canada) prior to the date hereof (the “**Tax Proposals**”), and Counsel’s understanding of the current administrative practices and assessing policies of the Canada Revenue Agency (the “**CRA**”) published in writing by it prior to the date hereof. This summary is also based on a certificate of an officer of the Corporation as to certain factual matters. This summary assumes the Tax Proposals will be enacted in the form proposed; however, no assurance can be given that the Tax Proposals will be enacted in the form proposed, or at all. This summary is not exhaustive of all possible Canadian federal income tax considerations and, except for the Tax Proposals, does not otherwise take into account or anticipate any changes in the law, whether by way of legislative, governmental or judicial decision or action, or in the administrative practices or assessing policies of the CRA, nor does it take into account other federal or any provincial, territorial or foreign tax laws or considerations, which may differ significantly from the tax considerations described herein.

The income and other tax consequences of acquiring, holding or disposing of Common Shares will vary depending on the particular circumstances of the Holder thereof, including any province or territory in which the Holder resides or carries on business. Accordingly, this summary is of a general nature only and is not intended to be, nor should it be construed to be, legal or tax advice to any particular Holder or prospective Holder of Common Shares, and no representations with respect to the income tax consequences to any Holder or prospective Holder are made. Consequently, Holders and prospective Holders of Common Shares should consult their own tax advisors for advice with respect to the tax consequences to them of acquiring Common Shares pursuant to this Offering, having regard to their particular circumstances.

This summary does not address the Canadian federal tax considerations applicable to holders that are not, nor are deemed to be, resident in Canada. Any such prospective holders should consult their own tax advisors regarding the tax consequences of acquiring, holding and disposing of Common Shares.

Qualification as a MIC

This summary is based upon the assumption that the Corporation will qualify as a MIC under the Tax Act throughout its current taxation year and for all future taxation years. The Corporation has advised Counsel that it intends to meet all of the requirements under the Tax Act to qualify as a MIC throughout its current taxation year and for all of its future taxation years. Counsel express no opinion as to the status of the Corporation as a MIC. If the Corporation were to not qualify as a MIC at any time, the income tax considerations would be materially different from those described herein.

The Tax Act imposes certain requirements in order for a corporation to qualify as a MIC in a taxation year. These requirements generally will be satisfied by the Corporation if, throughout the taxation year: the Corporation was a Canadian corporation for the purposes of the Tax Act; the Corporation’s only undertaking is the investing of its

funds and it did not manage or develop real or immovable property; none of the Corporation's property consisted of specified types of foreign property; the Corporation had at all times at least 20 Shareholders; no Shareholder (together with "related persons", see below) held directly or indirectly more than 25% of any class of the issued shares of the Corporation; certain dividend rights attach to any preferred shares of the Corporation; the cost amount to the Corporation of certain residential mortgages (see commentary below) and deposits (such residential mortgages and deposits referred to herein as "**Required Property**") plus the amount any money of the Corporation was at least 50% of the cost amount to it of all of its property; not more than 25% of the cost amount to the Corporation of its property was attributable to certain real or immovable property or leasehold interests therein; and, in circumstances where at any time in the year the cost amount to the Corporation of its Required Property plus the amount of any money of the Corporation represented less than two-thirds of the aggregate cost amount to the Corporation of all of its property, the Corporation's liabilities did not exceed 75% of its assets (at cost amount). Where, however, throughout the year the cost amount to the Corporation of its Required Property plus the amount of any money of the Corporation represented two-thirds or more of the aggregate cost amount to the Corporation of all of its property, the Corporation's liabilities may not exceed 83⅓ % of its assets (at cost amount).

For these purposes, "related persons" (as referred to above) include a corporation and the person or persons that control the corporation, a parent corporation and its subsidiary corporation(s) and corporations that are part of the same corporate group, and an individual and that individual's spouse, common-law partner or child under 18 years of age. The rules in the Tax Act defining "related persons" for the purposes of the definition of MIC in subsection 130.1(6) of the Tax Act are complex and Holders should consult their own tax advisors in this regard.

For purposes of the 50% asset test noted above, the reference to certain residential mortgages is, more specifically, to debts that are secured by mortgages, hypothecs or in any other manner, on "houses" as defined in the *National Housing Act* (Canada) or on property included within a "housing project" as defined in the *National Housing Act* (Canada) as it read on June 16, 1999.

Taxation of the Corporation

The Corporation is a "public corporation" for purposes of the Tax Act and as such is subject to tax at the full corporate rate on its taxable income.

However, provided the Corporation qualifies as a MIC, the Corporation may deduct in computing its income for a taxation year the amount of dividends paid to its Shareholders, as follows: (i) all taxable dividends, other than capital gains dividends, paid by the Corporation to its Shareholders during the year or within 90 days after the end of the year (to the extent not deductible in computing the Corporation's income for the previous year); and (ii) one-half of all capital gains dividends paid by the Corporation to its Shareholders during the period commencing 91 days after the commencement of the year and ending 90 days after the end of the year. The Corporation must elect to have the full amount of a dividend qualify as a capital gains dividend. The payment of capital gains dividends will allow the Corporation to flow capital gains it realizes through to its Shareholders.

The Corporation has advised Counsel that it intends to pay dividends to the extent necessary to reduce its taxable income in each year to nil so that it has no tax payable under Part I of the Tax Act and to elect to have dividends be capital gains dividends to the maximum extent allowable.

Taxation of Shareholders

Corporate Dividends

Capital gains dividends received by a Holder (whether paid in cash or reinvested in Common Shares) will be treated as a capital gain of the Holder from a disposition in the year of capital property for the year in which the dividend is received. See below under the subheading "*Dispositions of Common Shares*" for a description of the tax treatment of capital gains.

Taxable dividends, other than capital gains dividends, received by a Holder of Common Shares (whether paid in cash or reinvested in Common Shares) must be included in the Holder's income as interest payable on a bond issued

by the Corporation. The amount of a dividend reinvested in additional Common Shares will be the cost amount of such Common Shares.

The provisions of the Tax Act providing for interest accrual, the gross-up and dividend tax credit in respect of taxable dividends received by individuals from taxable Canadian corporations, and for the deduction generally available to corporations for inter-corporate dividends received, will not apply in respect of taxable dividends on the Common Shares. Similarly, the provisions of Part IV of the Tax Act will not apply to the receipt of taxable dividends on the Common Shares by a corporate Holder.

Dispositions of Common Shares

On the disposition or deemed disposition of a Common Share by a Holder (other than to the Corporation, unless purchased by the Corporation in the open market in the manner in which shares are normally purchased by any member of the public in an open market), the Holder will generally realize a capital gain (or a capital loss) equal to the amount by which the proceeds of disposition in respect of such Common Share, net of any reasonable costs of disposition, exceed (or are exceeded by) the adjusted cost base of the Common Share to the Holder. A Holder's proceeds of disposition will not include an amount payable by the Corporation on the Common Share that is otherwise required to be included in the Holder's income. For the purpose of determining the adjusted cost base to a Holder of Common Shares, when a Common Share is acquired, the cost of the newly acquired Common Share will be averaged with the adjusted cost base of all of the Common Shares owned by the Holder as capital property immediately before that acquisition. The adjusted cost base of a Common Share to a Holder will be subject to certain adjustments.

One-half of the amount of any capital gain (a “**taxable capital gain**”) realized by a Holder in a taxation year must be included in computing such Holder's income for that year, and one-half of any capital loss (an “**allowable capital loss**”) realized by a Holder in a taxation year must be deducted from any taxable capital gains realized by the Holder in the year, subject to and in accordance with the provisions of the Tax Act. Allowable capital losses in excess of taxable capital gains realized in a taxation year may be carried back and deducted in any of the three preceding taxation years or carried forward and deducted in any following taxation year against net taxable capital gains realized in such years, subject to and in accordance with the provisions of the Tax Act.

On a redemption or acquisition of Common Shares by the Corporation (other than an acquisition by the Corporation in the open market in the manner in which shares are normally purchased by any member of the public in an open market), the Holder generally will be deemed to have received, and the Corporation will be deemed to have paid, a dividend in the amount equal to the amount by which the price paid by the Corporation exceeds the paid-up capital of the purchased Common Shares. This deemed dividend will be treated in the same manner as other dividends received by the Holder from the Corporation (i.e. as interest or, if the Corporation elects that the entire dividend be a capital gains dividend, as a capital gain). The balance of the purchase price, if any, will constitute proceeds of disposition of the Common Shares for purposes of the capital gains rules, as described above.

Minimum Tax and Refundable Tax

In general terms, a capital gain realized by a Holder (including capital gains dividends received on Common Shares) who is an individual or trust (other than certain specified trusts) may increase the Holder's liability for alternative minimum tax.

A Holder that is a “Canadian-controlled private corporation” (as defined in the Tax Act) may be liable to pay an additional refundable tax on certain investment income for the year, including amounts as, or in respect of, interest and taxable capital gains.

Tax Implications of our Dividend Policy

The market value of a Common Share may be attributable in part to income and capital gains that have been earned by the Corporation, but which have not been realized and/or paid out as a dividend. If a Holder acquires Common

Shares before a dividend record date, the Holder will be taxed on the full amount of any such dividend that is received by the Holder.

RISK FACTORS

Before making an investment decision, prospective purchasers of Common Shares should carefully consider the risks described in this Prospectus Supplement, the Prospectus and the documents incorporated by reference herein and therein. There are certain risks inherent in an investment in Common Shares, including the following factors, which investors should carefully consider before investing. Some of the following factors are interrelated and, consequently, investors should treat such risk factors as a whole. The following information is a summary only of certain risk factors and is qualified in its entirety by reference to, and must be read in conjunction with, the detailed information appearing elsewhere in this Prospectus Supplement, the Prospectus and the documents incorporated by reference herein and therein, including the AIF, Annual MD&A and Interim MD&A.

MCAN's major risk types include: liquidity and funding, credit, interest rate, market, operational, regulatory compliance, strategic and reputational risk. Incidents related to these risks can adversely affect MCAN's ability to achieve its business objectives or execute its business strategies, and may result in a loss of earnings, capital and/or damage to its reputation. These risks and uncertainties are not the only ones that could affect the Corporation and additional risks and uncertainties not currently known to the Corporation, or that it currently deems immaterial, may also impair the returns, financial condition and results of operations of the Corporation. If any such risks actually occur, the returns, financial condition and results of operations of the Corporation could be materially adversely affected and the financial performance of the Corporation, the ability of the Corporation to make cash distributions and the trading price of the Common Shares could be materially adversely affected.

COVID-19 and Other Pandemics or Epidemics

In December 2019, a novel strain of coronavirus ("COVID-19") emerged in China. Since then, it has spread to over a hundred other countries and infections have been reported around the world. Canada confirmed its first case of COVID-19 on January 25, 2020 and its first death related to COVID-19 on March 9, 2020. On March 11, 2020, the World Health Organization declared the outbreak of COVID-19 a global pandemic.

The ongoing COVID-19 pandemic has led to prolonged voluntary and mandatory building closures, business closures, government restrictions on travel, movement and gatherings, quarantines, curfews, self-isolation and physical distancing. The impact of these measures has led to a general shutdown of economic activity and has disrupted workforce and business operations both in North America and in other parts of the world. Such occurrences could have a material adverse effect on the demand for real estate, and equity capital markets. Given the unprecedented and pervasive impact of changing circumstances surrounding the COVID-19 pandemic, there is inherently more uncertainty associated with the Corporation's operating assumptions and expectations. The duration and impact of the ongoing COVID-19 pandemic is unknown at this time, as is the efficacy of the government and central bank interventions. The pace of recovery following such occurrences cannot be accurately predicted, nor can the impact on the Corporation's business and operations, Common Shares, financial condition, cash flows, results of operations, or ability to make distributions to shareholders. Other outbreaks of pandemics and epidemics in the future may have similar impacts on the Corporation.

Volatility of Market Price of the Common Shares

The Corporation has applied to list the Common Shares being distributed under this Prospectus Supplement on the TSX. Listing will be subject to the Corporation fulfilling all of the listing requirements of the TSX. There can be no assurance that an active public market for trading in the Common Shares will persist and, as a result, the market price of the Common Shares may be adversely affected.

The market price of the Common Shares may be volatile and subject to wide fluctuations in response to numerous factors, including actual or anticipated fluctuations in operating and financial results, the results of any public announcements made by the Corporation, sales of the Common Shares in the marketplace, failure to meet analysts' expectations, or general market conditions.

The volatility may affect the ability of holders of Common Shares to sell the Common Shares at an advantageous price. Financial markets have, at times, experienced significant price and volume fluctuations that have particularly affected the market prices of securities of companies and that have, in many cases, been unrelated to the operating performance, underlying asset values or prospects of such companies. There can be no assurance that fluctuations in price and volume will not occur. If such increased levels of volatility and market turmoil occur, the Corporation's operations could be adversely impacted and the trading price of the Common Shares may be adversely affected.

Investment Eligibility

The Corporation will endeavor to ensure that the Common Shares continue to be qualified investments for trusts governed by Plans. No assurance can be given in this regard. If the Common Shares are not qualified investments for Plans, such Plans (and, in the case of certain Plans, the annuitants, subscribers or beneficiaries thereunder or holders thereof) may be subject to adverse tax consequences.

Dividends on Common Shares

Although the Corporation's policy is to pay out substantially all of its taxable income to its Shareholders, these dividends may be reduced or suspended. The actual amount distributed will depend on numerous factors disclosed in the Corporation's continuous disclosure documents, including the financial performance of the mortgages in its portfolio, its debt covenants and obligations and its future capital and liquidity requirements. In addition, the market value of the Common Shares may decline if the Corporation is unable to meet its dividend targets in the future, and that decline may be significant.

Potential Dilution

The Corporation is authorized to issue an unlimited number of Common Shares for such consideration and on such terms and conditions as shall be established by the board of directors, in many cases, without the approval of the Shareholders, and Shareholders will have no pre-emptive rights in connection with such further issuances. Except as described under the heading "*Plan of Distribution*" in this Prospectus Supplement, the Corporation may issue additional Common Shares in subsequent offerings (including through the sale of securities convertible into or exchangeable for Common Shares) and on the vesting of deferred share units, restricted share units, performance share units, or other securities exchangeable or exercisable for Common Shares. The Corporation cannot predict the size of future issuances of Common Shares or the effect that future issuances and sales of Common Shares will have on the market price of the Common Shares. Issuances of a substantial number of additional Common Shares, or the perception that such issuances could occur, may adversely affect prevailing market prices for the Common Shares. With any additional issuance of Common Shares, holders of Common Shares will suffer dilution to their voting power and the Corporation may experience dilution in its earnings per Common Share.

Qualification as a MIC

Although the Corporation intends to qualify at all times as a MIC, no assurance can be provided in this regard. Since the Corporation must meet certain requirements throughout the year to qualify as a MIC, it is only possible to determine whether the Corporation qualifies as a MIC for a particular taxation year at or after the end of such year. If for any reason the Corporation does not qualify as a MIC under the Tax Act, dividends paid by the Corporation on its Common Shares will not be deductible by the Corporation in computing its income and will not be deemed by the relevant rules that apply to MICs to have been received by Shareholders as interest or a capital gain, as the case may be. In consequence, as long as the Common Shares are listed on a designated stock exchange (which currently includes the TSX), the rules in the Tax Act regarding the taxation of public corporations and their shareholders would apply, with the result that the combined corporate and shareholder tax may be significantly greater.

No Shareholder is permitted, alone or together with "related persons" (as defined in the Tax Act for purposes of the definition of MIC in subsection 130.1(6) of the Tax Act), at any time to hold (directly or indirectly) more than 25% of any class of the issued shares of the Corporation. The Corporation intends to monitor major holdings of Common Shares to ensure that no one Shareholder exceeds this 25% maximum ownership limit set by the Tax Act, in order for the Corporation to maintain its qualification as a MIC. However, given that registration of the Common Shares

issued by the Corporation is made in the depository service of CDS, it may be difficult for the Corporation to monitor this 25% ownership rule. In order for the Corporation to stay within this 25% limit, it may have to exercise its right to trigger an Automatic Repurchase.

Net Proceeds to the Corporation

There is no certainty that the maximum total offering amount, or any of the offering amount, will be raised under the Offering. The Agent has agreed to use its commercially reasonable efforts to sell the Common Shares when and to the extent requested by the Corporation, but the Corporation is not required to request the sale of the maximum amount offered and, if it requests a sale, the Agent is not obligated to purchase any Common Shares that are not sold. As a result of the Offering being made on a commercially reasonable efforts basis with no minimum offering amount, and only as requested by the Corporation, the Corporation may raise substantially less than the maximum total offering amount, or none at all.

Further, management of the Corporation may spend net proceeds received by the Corporation from a sale of Common Shares, if any, in ways that do not improve the Corporation's results of operations or enhance the value of the Common Shares or its other securities issued and outstanding from time to time. Any failure by management to apply these funds effectively could result in financial losses that could have a material adverse effect on the Corporation's business or cause the market price of the securities of the Corporation issued and outstanding from time to time to decline.

Number of Common Shares to be Offered

The Common Shares will be sold by the Agent at the market price prevailing at the time of sale and, therefore, there is no certainty on the number of Common Shares that may be sold under the Offering. If the prevailing market price for the Common Shares declines, then the Corporation will be able to issue more Common Shares under the Offering and investors may suffer greater dilution.

LEGAL MATTERS AND INTEREST OF EXPERTS

Certain legal matters relating to the Offering will be passed upon on behalf of the Corporation by Goodmans LLP, and on behalf of the Agent by Blake, Cassels & Graydon LLP. As at the date hereof, the partners and associates of Goodmans LLP, as a group, own less than 1% of the outstanding Common Shares, and the partners and associates of Blake, Cassels & Graydon LLP, as a group, own less than 1% of the outstanding Common Shares.

AUDITORS, TRANSFER AGENT AND REGISTRAR

The auditor of the Corporation is Ernst & Young LLP, Chartered Professional Accountants, Toronto, Ontario. Ernst & Young LLP has confirmed that it is independent of the Corporation within the meaning of the relevant rules and related interpretations prescribed by the relevant professional bodies in Canada and applicable legislation or regulations.

The transfer agent and registrar for the Common Shares is Computershare Trust Company of Canada at its principal offices located in Toronto, Ontario, Canada.

STATUTORY RIGHTS OF WITHDRAWAL AND RESCISSION

Securities legislation in certain of the provinces and territories of Canada provides purchasers with the right to withdraw from an agreement to purchase securities and with remedies for rescission or, in some jurisdictions, revision of the price, or damages if the prospectus, prospectus supplements relating to securities purchased by a purchaser and any amendment are not delivered to the purchaser, provided that the remedies are exercised by the purchaser within the time limit prescribed by securities legislation. However, purchasers of Common Shares under an "at-the-market distribution" by the Corporation will not have the right to withdraw from an agreement to purchase the Common Shares and will not have remedies for rescission or, in some jurisdictions, revision of the price, or damages for non-delivery of the Prospectus, because the Prospectus, prospectus supplements relating to the

Common Shares purchased by such purchasers and any amendment relating to Common Shares purchased by such purchasers will not be delivered as permitted under Part 9 of National Instrument 44-102 – *Shelf Distributions*.

Securities legislation in certain of the provinces and territories of Canada also provides purchasers with remedies for rescission or, in some jurisdictions, revision of the price or damages if the prospectus, prospectus supplements relating to securities purchased by a purchaser and any amendment contains a misrepresentation, provided that the remedies are exercised by the purchaser within the time limit prescribed by securities legislation. Any remedies under securities legislation that a purchaser of Common Shares under an “at-the-market distribution” by the Corporation may have against the Corporation or the Agent for rescission or, in some jurisdictions, revision of the price, or damages if the prospectus, prospectus supplements relating to securities purchased by a purchaser and any amendment contain a misrepresentation remain unaffected by the non-delivery. Purchasers should refer to any applicable provisions of securities legislation for the particulars of these rights or consult with a legal advisor.

For purposes of the Offering, the information set out in this section supersedes and replaces the statement of purchasers’ rights contained in the Prospectus under the heading “*Statutory Rights of Withdrawal and Rescission*”.

CERTIFICATE OF THE AGENT
