Non-GAAP and Other Financial Measures

This investor presentation references a number of non-GAAP and other financial measures and ratios to assess the Company’s performance such as return on average shareholders' equity, spread of corporate mortgages over term deposit interest and expenses, net corporate mortgage spread income, and book value per common share. These measures are not calculated in accordance with International Financial Reporting Standards ("IFRS"), are not defined by IFRS and do not have standardized meanings that would ensure consistency and comparability between companies using these measures. These metrics are considered to be non-GAAP and other financial measures and are defined and reconciled to the most directly comparable IFRS measure in the "Non-GAAP and Other Financial Measures" section of the Company’s Q3 2024 MD&A available on SEDAR+ at www.sedarplus.ca, which section is incorporated herein by reference.

Financial Reboot: Support for Credit Optimization, Rehabilitation and Education

THE CHALLENGE

Many Canadians find themselves carrying increased debt due to life events. It can be difficult to imagine a path forward. Our client, a 35-year-old homeowner in Guelph, Ontario, has accumulated debt following an accident and unsuccessful business endeavor. However, he has transitioned to a sustainable, full-time employment supplemented by alternative income from a part-time job as a hockey referee in his community and holds significant equity in his home.

THE SOLUTION

MCAN recently launched our SCORE Program, designed to help clients consolidate debt and rehabilitate credit standing so they can rebuild for the future. The program rewards clients throughout their mortgage term when their credit score increases.

THE HIGHLIGHTS

The refinance allows him to consolidate various debts, resulting in significant monthly savings of more than $1,500. This financial restructuring improves his immediate cash flow and set him on a path to restore his credit.
