Non-GAAP and Other Financial Measures

Federally Regulated Financial Institution since 1991

- strong governance and risk management practices throughout the company
- lower cost of liability funding vs MIC peers

Financial Reboot: Support for Credit Optimization, Rehabilitation and Education

THE CHALLENGE

Many Canadians find themselves carrying increased debt due to life events. It can be difficult to imagine a path forward. Our client, a 35-year-old homeowner in Guelph, Ontario, has accumulated debt following an accident and unsuccessful business endeavor. However, he has transitioned to a sustainable, full-time employment supplemented by alternative income from a part-time job as a hockey referee in his community and holds significant equity in his home.

THE SOLUTION

MCAN recently launched our SCORE Program, designed to help clients consolidate debt and rehabilitate credit standing so they can rebuild for the future. The program rewards clients throughout their mortgage term when their credit score increases.

THE HIGHLIGHTS

The refinance allows him to consolidate various debts, resulting in significant monthly savings of more than $1,500. This financial restructuring improves his immediate cash flow and set him on a path to restore his credit.
